REGINA'S COAT OF ARMS

The above is a facsimile of the City's Coat of Arms. The Shield is surmounted by the Royal Crown, a sign of loyalty. On the upper half of the Shield is the Buffalo, the former master of these vast but now rich prairies. On the lower half is the sheaf of wheat which represents the source from which the prosperity of Regina comes and is symbolic of our City as being the centre of the richest wheat growing district in the Dominion.

The City's Motto: "Floreat Regina", engrossed on the Scroll, means "Let Regina Flourish."

This Coat of Arms forms the centre of the Common Seal of the City, adopted by Council, June 2nd, 1913.

The City Colors, as officially adopted by the council on June 6th, 1916, are Royal Purple and Old Gold.

CITY OF REGINA

REGINA, the Capital and Seat of Government of the Province of Saskatchewan, is situated 357 miles west of Winnipeg on the C. P. R. Main Line. When incorporated as a city in 1903, Regina had a population of 3,000. Since then it has grown solidly and steadily, until today it is the fourteenth City of the Dominion, with an estimated population of 40,000.

REGINA is Latin for "Queen," and commemorates Queen Victoria. The name was suggested in 1882 by Princess Louise, Duchess of Argyle, the Queen's daughter and wife of the Governor General.

HISTORICAL

The first settlers of the district arrived in May, 1882, and subsequently a canvas town sprang up where the trestle bridge carries the main track of the C. P. R. across Wascana Creek, about a mile west of the centre of the City.

The selection of the townsite of Regina was arranged jointly by the Government and the C.P.R. Company. Early in 1883 an officer of the North-West Mounted Police was sent to select a suitable place for the headquarters of the force, which had previously been at Winnipeg. On his return the lands at present occupied by the barracks were selected.

At this time an agreement had been completed between the Dominion Government and the Railway Company to enter into partnership regarding certain townsites, one of which was to be the seat of Government for the North-West Territories. Acting under this agree-

ment the General Manager of the Railway Company, then W. C. Van Horne, and Mr. Dewdney, the Governor of the Territories selected four sections, viz: 19 and 30 township 17, range 19, and 24 and 25, township 17, range 20, west of the second meridian, to constitute the Townsite of Regina. These selections were subsequently vested in Messrs. Olser, Scarth, Smith and Angus, trustees to administer and divide the net proceeds between the Federal Government and the Railway Company.

The arrangement for the control of the townsite by the Townsite Trustees was terminated by Order in Council of 29th December, 1900, and by further Order in Council of 6th April, 1903, the granting to the Municipality of the lots in the Townsite which had reverted to the Crown was authorized.

Up to March 7th, 1883, when the Roundhouse was burned, Regina had been a Divisional Point on the C.P.R., but after that date the headquarters of the Division was removed to Moose Jaw.

By order in Council 27th March, 1883 the Town of Regina was declared to be the seat of Government of the North-West Territories, in place of Battleford.

In the Spring of 1883, the first school was opened in the Town. The original Dominion Lands Office, a low frame building, was brought up on a flat car from Troy (afterwards called Qu'Appelle) and placed at the corner of Broad Street and Victoria Avenue.

A public meeting was held in April, 1883, to discuss the matter of the site of the proposed post office, the site finally selected being on Victoria Avenue.

On May 13th, 1883, Lieutenant Governor and Mrs. Dewdney arrived to take up residence in Regina. They were met on arrival by a large number of citizens, and His Honor was presented with an address.

Regina was made a Money Order Point on July 1st, 1883. A public meeting was held, and a citizens' committee formed to carry on the business of the Town. Mr. John Secord, Barrister, was appointed secretary and Sub-Committees were appointed on Finance, Sanitation, Fire and Water and Miscellaneous Affairs. A committee was also appointed to draft a charter of incorporation, and the finance Committee were instructed to collect \$2,000 by public subscription for public works.

Elections for the North-West Council were held in August, 1883. Mr. William White was selected for the Regina District. The Fifth Council of the North-west Territories was opened by Lieutenant Governor Dewdney on August 22, 1883. A bill entitled "An Ordinance Respecting Municipalities" was introduced in the North-West Council on September 12, 1883, and a public meeting of citizens was called to discuss the matter of incorporation.

In October, 1883, a lot on Eleventh Avenue near Rose Street, was sold for \$275. At this time farm lands in the vicinity of the City were worth about \$5 per acre.

On Monday, October 8th, the Civic Council met and took final steps to comply with the Ordinance to provide Municipal Government. The Government Buildings, Council Chambers and Indian Office on Dewdney Street were

completed in October. The first telephones privately owned were introduced into the town at this time.

Up to December, 1883, Regina had two chartered banks, the Bank of Montreal and the Merchants Bank. It was found, however, that there was not enough business for two banks, and the Merchants bank was therefore withdrawn.

Nominations for the first Municipal Elections took place on January 3, 1884. Two hundred and thirteen votes were polled, and the following were elected: J. W. Smith, J. A. Kerr, J. D. Sibbald, James Hambley, Daniel Mowat, W. H. Gibbs and Mr. D. L. Scott, who later became Judge of the Supreme Court of Alberta, was the first mayor.

Regina was incorporated as a City on June 19, 1903, under Chapter 28 of the Ordinances of the North-West Territories 1903-04 and became the Capital and seat of Government of the Province of Saskatchewan.

The Parliament Buildings, the erection of which was commenced in the fall of 1908, stands in its own grounds of about 160 acres, south of Wascana Lake and within the City Limits. It has well been said that there are no Parliament Buildings more dignified or better adapted to the needs of legislative work than those of the Saskatchewan Capital.

CITY GOVERNMENT

The government of the City is vested in a Council. It is what is regarded as a modified form of Commission Government with the Council as the Legislative body, and the City Commissioners the Executive. The powers of both are contained in "The City Act." The Council consists of the Mayor and ten Aldermen. Both are elected by a vote of the City at large. The Mayor is elected annually, while the Aldermen hold office for two years. The members of the Collegiate Institute, Public and Separate School Boards are elected at the same time and in same manner as Aldermen.

FINANCIAL CENTRE

Regina is unquestionably the financial centre of the Province, and its development in this respect is most remarkable. No less than seven of the leading Chartered Banks have branches in the City, and with one exception have erected substantial buildings of their own.

The Bank Clearing House Association was established and commenced business on October 1st, 1909. The bank clearings have been as follows:

1910	\$50,739,159.		
1911	73,032,088.	Increase	\$22,292,929
1912	115,727,648.	Increase	42,695,560
1913	132,087,457.	Increase	16,359,809
1914	98,205,541.	Decrease	33,881,916
1915	87,122,611.	Decrease	11,082,930
1916	124,349,589.	Increase	37,226,978
1917	169,800,113.	Increase	45,450,524
1918	184,624,631.	Increase	14,824,518
1919	210,898,989.	Increase	26,274,358
1920	231,070,268.	Increase	20,171,279
1921	203,659,640.	Decrease	27,410,628
1922	184,949,431.	Decrease	18,710,209
1923	190,195,987.	Increase	5,246,555
1924	179,302,867.	Decrease	10,893,119
1925	225,408,397.	Increase	46,105,503

The 1925 Clearings, it will be seen, represent, more than a 25% increase over those of the previous year and are highest since the record year of 1920.

Almost every loaning institution of importance in Canada has an office in the city, many of them occupying their own buildings.

A very large volume of business is transacted in the purchase and sale of bonds and debentures of the municipalities and school districts of Manitoba, Saskatchewan and Alberta, the City being the headquarters of Western Canada for this class of business. As an indication of this it may be said that the authorization granted by the Local Government Board for the issue of Municipal, School and Rural Telephone Debentures in Saskatchewan alone for 1925 amounted to \$1,690,505.00.

A RAILWAY CENTRE

Regina is justly entitled to be termed a great centre for railways. Twelve lines radiate in all directions from the City and the Canadian Pacific and Canadian National Railways vie with each other in their endeavor to give Regina an excellent train service. In short, Regina serves 2,255 miles of Railway on which are located some 250 Towns and Villages.

GREAT DISTRIBUTING POINT

Served by the Transcontinental Railway systems and numerous branch lines Regina offers unrivalled facilities for the distribution of merchandise in the middle West. As a distributor of farm implements, it has been spoken of as the greatest in the world, business in this line having reached \$25,000,000 in one

year. Every Canadian and American implement manufacturing firm of any importance has an agency in the City. This is due to Regina's geographical situation in the heart of the grain growing district of Western Canada, and its unequalled railway facilities.

MUNICIPALY-OWNED INDUSTRIAL SITE

The City of Regina occupies a premier position as regards Canadian Cities, and in fact a first position among American Cities, in that it owns a large portion of its original townsite. Three hundred acres of this original townsite, three blocks from the centre of the down town business and financial centre are reserved and developed for wholesale and manufacturing purposes. Provision is made for spur track accommodation to each site. Sewer, water, power, street railway, pavements and walks are available throughout the area, and the freight depots of the railway companies are convenient to it. Over half in value of the area, representing 7 miles of spur track frontage, has been sold and is in use for manufacturing and warehouse purposes. The City has still about 6 miles of spur track frontage for sale to bona fide businesses at satisfactory prices. Some seventy new businesses have located here since 1914, and Regina has a number of manufacturing concerns, upwards of 150 wholesale and over 360 retail houses located in the city.

MUNICIPAL OWNERSHIP

The City is a firm believer in municipal ownership and owns its Street Rail-

way of which it has some 30 miles constructed within the City Limits; Light and Power Plant supplying cheap light and power and Water System. The number of passengers carried on the street railway during 1925 was 5,453,374 and its earnings \$315,031.67. The earnings of the power plant were \$622,390.32 and that of the waterworks for 1924, \$255,473.36.

CENTRE OF GRAIN GROWING PROVINCE

Surrounding Regina is the finest grain growing district in the world. Saskatchewan is pre-eminently an agricultural Province. It is the greatest grain growing province of Canada.

Testifying to the quality of the wheat grown in the Province it may be stated that Saskatchewan has won the World's Prize for the best wheat grown eleven times in the last fifteen years. It has also been demonstrated that some of the choicest Live Stock in the world is bred in this Province. At the 1925 Toronto Royal Show Saskatchewan won 10 championships and 8 at the Chicago International as well as 11 firsts at the former and 14 firsts at the latter shows. Saskatchewan is also coming to the front with dairying and other branches of diversified farming.

RESIDENTIAL CENTRE

In this respect Regina has been referred to as "The City of Beautiful Homes." Indeed, as a residential centre it offers every inducement to the home-seeker.

EDUCATIONAL CENTRE OF PROVINCE

From the educational and social points of view, the City also offers every advantage. With a population of about 40,000 the City has the Regina (United) College, St. Chad's (Anglican) College, Campion (Roman Catholic) College, and the Provincial Government Normal School, as well as a Lutheran College to be opened this year.

Besides this group of Educational Buildings there is a Central Collegiate Institute, a large building of classic design, and the Scott Collegiate, which was erected, equipped, and opened on the North Side, at a cost of \$150,000 in 1923.

In addition there are some 18 Public and Separate Schools, 28 Churches, Y.M.C.A. and Y. W. C. A., two Public Hospitals and several Private Nursing Homes; a Public Library with three branches; several Business Colleges and numerous Societies for the advancement of Art, Music, Literature and Science; one daily Morning Paper, one daily Evening Paper, two weekly papers and several monthly trade publications.

As to amusements, the City has one regular and four Moving Picture Theatres. The lake adjoining the Parliament Buildings offers facilities for boating, bathing and skating. Many Fraternal Societies and other Organizations exist here devoted to amateur theatricals, debates, etc. The City is within easy distance of Last Mountain and Katepwa Lakes, two of the beauty spots of the

Province, and delightful holiday resorts which afford excellent facilities for bathing, fishing and boating.

SOME STATISTICS

Regina is the best paved City in Canada for its size, having some 35.63 miles of paved streets, 70 miles of graded streets, 51.27 miles of granolithic and 73.97 miles of plank sidewalks. The City also has some 82.26 miles of sewer with 8,347 connections; some 80 miles of water mains with 573 hydrants and 6,040 house connections; four fire stations with some 53 firemen and a full equipment of the most modern fire fighting apparatus; some 257 acres of parks, a trunk sewer and sewage disposal works and an incinerator plant for disposal of garbage.

CITY HALL

Regina's City Hall is situated at the Corner of Eleventh Avenue and Hamilton Street. The funds for its erection were to a great extent provided by the sale of the Townsite Lands, yet the City still possesses an asset in its saleable property which is valued at some \$1,767,434.00.

HEADQUARTERS OF MILITARY DISTRICT

Regina is also the headquarters of Military District No. 12, which comprises the Province of Saskatchewan. This adds much to the business and social life of the City. Further details as to the officers comprising the staff and units in the garrison will be found on pages 121 and 122.

MAYORS OF THE TOWN OF REGINA

From the Date of its Incorporation as
a Town in the Year 1883, to the Date

LOCAL BOARDS AND COMMISSIONS

Either appointed by or on which the City Council is represented are as follows:

Board of Governors, Regina General Hospital:

Mr. S. C. Burton, Chairman.
Mayor Mason, Vice-Chairman.
Aldermen Hill and McInnis.
City Commissioner L. A. Thornton.
Dr. E. E. Kells and Mr. Jas. Grassick.

Regina Public Library Board:

Mr. F. B. Reilly (Chairman), Mr. J. D. Denny, B. A., (Deputy Chairman)
His Worship Mayor Mason.
Alderman R. N. Kelly, Mr. M. J. Coldwell, Rev. G. A. Fere and Dr. A. S. Gorrell.

Board of Sinking Fund Trustees:

L. A. Thornton, (Chairman)
D. D. Ross, Secretary.
W. E. Mason and S. C. Burton, Trustees.

Board of Directors, Regina Agricultural and Industrial Exhibition Association.

His Worship Mayor Mason and Alderman Taylor.

Civic Playgrounds Commission :

Aldermen H. Perry, McKee and McNall

Regina Amateur Boxing Commission:

Mr. Norman Mackenzie (Chairman)
Chief Constable M. J. Bruton.
Mr. Jas. Grassick, and Dr. Thomson.

Board of Examiners of Plumbers:

Mr. Jas. Adams (Chairman)
Messrs. Jno. Prideaux, D. Swan and H. D. Mathias.

MEETINGS OF COUNCIL

The first meeting of the Council in each year is held on the first Monday in January, except when that day is a public holiday, in which case the meeting takes place on the next subsequent day which is not a public holiday; and the Council of the previous year holds office until the new Council meets.

The subsequent regular meetings of Council are held on the first and third Tuesdays in each month throughout the year at 7.30 p.m.

Special meeting of the Council may be called by the Mayor whenever he deems it expedient, and he may do so when requested in writing by a majority of the Council.

A majority of the whole Council constitutes a quorum.

ORDERS OF THE DAY

The "General Orders of the Day" at each meeting are as follows:

- (1) Confirming Minutes of last Meeting.
- (2) Original Communications and Petitions.
- (3) Presentation and Consideration of Committee Reports.
- (4) Presentation and Consideration of City Commissioner's Reports.
- (5) Enquiries and Answers thereto.
- (6) Motions.
- (7) Giving Notice.
- (8) Introduction and consideration of Bills and Bylaws.
- (9) Unfinished Business.

COMMITTEES OF COUNCIL

At the beginning of 1916 the Council abolished the various Standing Committees and substituted therefor a Special Committee consisting of all the members of Council with the Deputy Mayor as Chairman. This special Committee meets every Thursday evening at 7.30 o'clock and undertakes the duties and performs the functions of all the former Standing Committees.

Sub-Committees are appointed from this large Committee from time to time for the purpose of considering and reporting upon particular subjects and on any matters which may be referred to them.

FIRE DEPARTMENT

Phone 100 in case of fire.

The four Fire Halls of the City are located as follows;

Central—Headquarters: Osler Street and Eleventh Avenue. Chief's Office
Phone 5101. Phone—for fire only—100.

North Side, No. 2.—Scarth Street and Eighth Avenue. Phone 3322.

West End, No. 3—Robinson Street and Fourteenth Avenue. Phone 5363.

East End, No. 4.—Winnipeg Street and Victoria Avenue. Phone 2334.

Always when using the telephone in case of fire ring 100. Keep cool, speak slowly and plainly, and give name of street and number of block or building. If you get excited and yell in the phone it only delays the department that much longer.

FIRE ALARM BOXES and DIRECTIONS FOR USING.

The telegraph fire alarm is the quickest way to notify the Fire Department of a fire.

The key is always in the box to open the door. To reach the key, break the glass, turn the key to right and pull door open. Inside is a hook near the top of the box which must be pulled down once and then let go.

Wait at the box until the Fire Department arrives and direct them to the fire.

There are 573 Fire Hydrants and 61 fire Alarm Stations in the City.

SITUATION OF BOXES

Look over this list and find the nearest box to your home, or the boxes you pass every day to and from your home. The Fire Department have to depend on the citizens for sending an alarm of fire in promptly.

Any person sending in a false alarm of fire or interfering with the fire alarm is liable to a fine of \$50.00.

The Fire Department is under the control of the City Council. It consists of one Chief, eight Captains, two Operators and 42 Firemen.

The Department operates under the Two-Platoon System, half the members being on day shift and the other half on night shift, the change being made at 8.00 a.m. and 6.00 p.m. each day.

The fire losses for last year were some \$100,000, and, with the exception of 1917 and 1921, where there were large losses at the Exhibition Grounds, the average loss since 1914 has been low.

Over 50% of fires are preventable and 25% partly preventable. A few of the principal causes of fires are ashes put too close to buildings or other wood material, coal oil stoves and heaters, cigar and cigarette stubs thrown amongst inflammable material, lighted matches thrown down and children playing with same, careless handling of gasoline, overheated stove, and furnace pipes too close to ceilings and wood partitions.

FIRE PREVENTION

Bylaw No. 839, passed by the City Council in 1915, has for its object the prevention of fire within the City Limits and the safeguarding of life and property against fire. "Conservation," the official organ of the Commission of Conservation of Canada has commented very favorably upon this bylaw. It made particular reference to the sections of the bylaw dealing with the handling of rubbish, the disposition of hot ashes and the prohibition of lighted bonfires within the City Limits without a permit from the Fire Chief. The Fire Chief reports that the citizens have taken kindly to the inspection work carried out. In many cases they welcome the men who are able to give advice on prevention of fires. The Fire Department seeks the co-operation of the citizens in its work to prevent fires and reduce the fire loss.

COMPARATIVE STATEMENT OF ASSESSMENT AND TAX RATES—1907 to 1926

Year	Net Taxable Assessment	Municipal	Collegiate Institute	Public Library	Schools		Total Mill Rate

LOCAL IMPROVEMENTS

When the owners of property abutting on any street or place desire the construction of any of the local improvements, hereinafter referred to, application should be made to the City Clerk for a form of petition to the Council for the work or improvement. Such petition must be signed by at least two-thirds of the registered or assessed owners of property abutting on the street or place where the work or improvement is required, and representing at least one-half in value of such property; and on receipt of such sufficiently signed petition the Council may proceed with the work or improvement and assess the cost in whole or part against the property benefitted.

If, in the opinion of the Council, any such work or improvement is necessary and in the public interest, it may direct that it be proceeded with unless a petition against said work or improvement signed by a majority of the owners of the property affected and representing at least one-half in value thereof, be received by the Council within two weeks after the last publication of the intention of the Council to undertake such work or improvement, which publication must be made once in each week for two successive weeks in some newspaper published in the City.

A work of any of the following descriptions may be undertaken as a local improvement, that is to say:

(a) The opening, widening, straightening, extending, grading, levelling, macadamizing, paving, or planking of any street or public lane, alley way or place; or

(b) The construction of any sidewalk, which shall include any street crossing constructed and in connection with a sidewalk, bridge, culvert or embankment forming part of a highway; or

(c) The curbing, sodding, boulevarding, or planting of any street or public lane, alley, square or other public place; or

(d) The making, deepening, enlarging or prolonging of any common sewer or water main and sewer or water service connections; or

(e) The construction of any conduit for wires or pipes along any roadway, street, lane, alley, square or other public place; or

(f) The reconstructing (but not the mere repair and maintenance) of any of the said works during the original estimated lifetime thereof; or

(g) The repair and maintenance thereof after the lapse of the original estimated lifetime thereof; or

(h) The erecting of ornamental street lighting standards; or

(i) The installing of high pressure water mains specially constructed for the purposes of fire protection.

It has been the practice of the Council to take advantage of the alternative provided by The City Act, and proceed by way of Notice of Intention, but such Notice of Intention has almost invariably originated with the reception of an insufficiently signed petition from adjacent property owners, which petition, although insufficiently signed and therefore not entitling the Council to proceed in accordance therewith, indicated a desire on the part of the property owners for the construction of such work or improvement.

The assessment of the cost of the principal improvements is spread over the following terms:

Pavements.....	15 years
Sidewalks (concrete).....	15 years
Boulevards.....	15 years
Sidewalks (plank).....	5 years
Sewers.....	30 years
Water Mains.....	30 years

BUILDING DEPARTMENT

General Office, City Hall, Phone 2419.
Building Inspector, O. T. Falls.

1923.....	671	1,264,030
1924.....	551	939,785
1925.....	581	1,208,403

For the current year the prospective programme bids fair to be the best since the great building activity of 1913. The largest projects under way are the C.P. R. and Broder's Hotels. Other large buildings include Churches, Hospital Additions, College Extensions, Apartment Blocks, Stores and Residences. During the past three years there has been a noticeable decrease in the percentage of houses built for speculative and rental purposes, the tendency being for citizens to own their own houses.

BUILDING PERMIT FEES

For each \$1,000 of value or part thereof up to \$100,000 a fee of \$1.00 per \$1,000 and a fee of 50 cents for each \$1,000, or part thereof in excess of \$100.00.

All removal of buildings \$ 1.00

For lowering of trolley wires for removals, per wire, a deposit of \$15.00

For the use of the Sidewalk or Street for building or similar operations, the applicant is required to pay for each month or part of a month that same is used a sum equal to 2 mills on the dollar of the assessed value of the lands abutting on the part of the street so used, if he occupies a depth of 22 feet, and in proportion for any less depth, but in no case shall the charge be less than 10 cents per foot frontage, regardless of the depth used. Provided that in the case of a corner lot if the frontage and flankage is used the cost per foot frontage shall be ascertained as above provided and the flankage shall be charged at 40% of the frontage rate. The question of which is frontage and which is flankage shall be determined by the Building Inspector at the time of application and before the permit is granted.

Any person desirous of erecting a new building, or making alterations or repairs to an existing building, before commencing operations must make application so to do to the City Building Inspector, and submit a plan of the proposed building, or alterations to same, such plan, when approved of, to be filed by the Building Department.

POPULATION

From a municipality with a population of 3,000 at the time of its incorporation as a City in 1903, Regina has grown steadily until now with an estimated population of 40,000, it is the largest and most important City in the Province of Saskatchewan.

According to the Dominion Census figures the population of the municipality in 1901 was 2,249; by the next census in 1906, it was 6,169; while the 1911 census figures gave the population as 30,213. The war years were poor immigration years and, with some six thousand five hundred local men enlisted for Overseas Service, the 1916 census showed the City's population to be 26,127. A slight revival took place in the latter years of the War, but after the Armistice there was another slump in the number of new settlers coming in. However, notwithstanding the war and its after effects, which were felt everywhere, the City maintained its record for steady and solid growth, with the result that the 1921 figures, as given by the Dominion Census, placed the population at 34,342.

THE ELECTRIC LIGHT AND POWER DEPARTMENT

Superintendent: E. W. Bull, Phone 3612.

Sub-Station, Corner Broad and Dewdney.

Power House No. 2, corner Winnipeg and Douglas.

The Electric Light and Power System is owned and operated by the City. This utility is not only self-sustaining, but revenue-producing.

Generating Plant

A modern generating plant, located on the shores of Wascana Lake, corner Winnipeg and Douglas Avenue, generates all power for the city. It has installed two 5,000 kw. Curtis, one 3,000 and two 1,500 kw. Willans (Seimens) turbines, six 500 h.p. Babcock and Wilcox water tube boilers, fitted with Riley Underfeed Stokers. The plant has all modern labor saving devices and shows excellent economy in generating.

Substation

No. 1 Plant is now employed as a substation and water pump plant, and for the supply of street railway power has installed one 1,200 k.v.a. street Peebles motor convertor and two 400 k.w. Seimens generators, driven by one 1,200 h.p. Synchronous motor. It has also two motor driven water pumps, five million and seven million gallons capacity respectively.

Street Lighting.

720 street lamps light 89 miles of streets and 1 mile of lanes.

For distribution of light and power to 10,102 consumers approximately 100 miles of pole line is required.

The statistics which follow, covering the past three years' operation, show the extent of the business and profits. The figures reflect the economy in the operation of the power plant and the increasing demands for energy.

MONTHLY SCHEDULE OF RATES LIGHT AND POWER

"A"—LIGHT.

1st.....	20 K.W. Hrs. at	6c. per K.W. Hr.
Next.....	980 K.W. Hrs. at	5c. per K.W. Hr.
All over.....	1,000 K.W. Hrs. at	5c. per K.W. Hr.

"C"—COMBINATION SERVICE.

LIGHTING AND COOKING

1st.....	20 K.W. Hrs. at	6c. per K.W. Hr.
Next.....	30 K.W. Hrs. at	5c. per K.W. Hr.
All over.....	50 K.W. Hrs. at	1.5c per K.W. Hr.

"D"—POWER.

1st.....	20 K.W. Hrs. at	5c. per K.W. Hr.
Next.....	980 K.W. Hrs. at	4c. per K.W. Hr.
Next.....	1,000 K.W. Hrs. at	3c. per K.W. Hr.
All over.....	2,000 K.W. Hrs. at	2.5c. per K.W. Hr.

For energy used on power installations of 15 K.W. demand or over, using full demand 120 hours per month during day or off peak hours the following rates will apply on the off peak consumption.

"E"—OFF PEAK POWER.

1st.....	1,000 K.W. Hrs. at	3.5c per K.W. Hr.
Next.....	1,000 K.W. Hrs. at	3c. per K.W. Hr.
Next.....	1,000 K.W. Hrs. at	2c. per K.W. Hr.
All over.....	3,000 K.W. Hrs. at	1.75c. per K.W. Hr.

SERVICE CHARGE.

Based on Connected Load—K.W. or H.P. of Demand (1 K.W. equals One Thousand Watts)

A Connected Load considered as not less than 1 K.W. or 1 H.P.

Light and Power—

50 cents per K.W. or H.P. of Demand.

Combination—

Light—50 cents per K.W. of Demand.

Cooking, etc.—30 cents per K.W. of Demand.

SPECIAL ENERGY RATES. COMBINATION OF LIGHT AND POWER.

Installations of 50 K.V.A. of Demand or over, taking energy at 2,200 volts, the energy may be used in both lights and motors, and charged at Schedule "D" and where consumption is sufficient to qualify, on both "D" and "E" Schedules.

SPECIAL INDUSTRIAL POWER CHARGE.

Installations of 50 K.V.A. of Demand or over, taking energy at 2,200 volts and at not less than 85% power factor, and using 240 K.W.H. per K.V.A. of demand each month, the rate

will be 1.5c per K.W.H. (No discount.)

Installations of 50 K.V.A. of Demand or over, taking energy at 2,200 volts and at not less than 85% power factor, and using 480 K.W.H. per K.V.A. of demand each month, the charge will be 1.3c per K.W.H. (No discount.)

Where an approved device is installed to determine the monthly demand of installations, the demand billed will not fall below 50% of the highest demand shown in any of the twelve immediately preceding months.

Hours in which the low rate applies:

From April 1st to September 30th
from 12 midnight to 6 p.m.

During March and October from 12
midnight to 5 p.m.

From November 1st to February 28th
from 12 midnight to 4 p.m.

Meters are installed on all services.

Accounts are rendered monthly by the City Treasurer and are payable monthly. Ten per cent. discount is allowed on current light and power only if paid within ten days of account leaving the Treasurer's Office.

In the event of non-payment of account connections are cut off within twenty days after date of mailing account, and a fee of \$2.00 charged for re-connection.

Applications.

An application is positively required in every case of new tenancy and the current will be disconnected without notice, when it has been found that an application has not been made.

All applications for energy, where installation is not new or where no alterations or extensions made, are made at the City Treasurer's Office. All applications for new installations are made at the City Power House.

Vacating Premises.

Consumers when vacating premises are requested to notify the City Treasurer immediately, so that meter may be read and current disconnected.

Deposits.

A deposit (schedule as under) is required to be made at the time of making application:

Light—

1 to 20 lights.....	\$5.00
21 to 40 lights.....	10.00
41 to 60 lights.....	15.00
and an additional \$5.00 for every additional 20 lights or any portion thereof, Light means one sixteen candle power carbon filament lamp or one 50 watt tungsten lamp.	

Power—

1 h.p. motor.....	\$5.00
1 to 2 h.p. motor.....	10.00
2 to 3 h.p. motor.....	15.00
and additional \$5.00 for each h.p. motor or fraction thereof. One h.p. means the maker's rated horse power of motor.	

NOTE—All meter readers and other employees whose duty require them to enter premises of consumers are required to wear a badge.

WATERWORKS DEPARTMENT

Superintendent: J. W. D. Farrell.

Office: City Hall, Phone 2403.

Applications for water service or the turning off of water must be made at the Office of the City Treasurer at the City Hall.

Any change in occupancy or change in fixtures should be reported at once to the City Treasurer's Office.

The Waterworks System is owned and operated by the City.

The supply of water is obtained from Springs and artesian wells in the valley of Boggy Creek, about 8 miles north-east of the City. A dam constructed across the Creek impounds about 100,000,000 gallons of water, which replenishes the Creek in times of drought, more than 65 wells have been sunk through the clay to the water-bearing gravel bed found at an average depth of 100 feet. These wells overflowing yield pure, sparkling water. Regina is in a unique position, as it is the only instance of a large city deriving the bulk of its supply of water from overflowing artesian wells. A further number of wells will be sunk from time to time as requirements increase. The water is collected in the Barton Pump Well (270,000 gallons capacity) and raised into the Tor Hill Reservoir by means of two 2,000,000 gallons per day Centrifugal Pumps, one directly connected to a 75 h.p. Electric Motor and the other to a 100 h.p. Electric Motor for either Pump can be driven by Oil Engines. Tor Hill Reservoir is a circular reinforced concrete structure, has a capacity of 5,000,000 gallons and

stands about 125 feet above the City level ; it is 202 feet in diameter and the maximum depth of water is 25 feet. The spring water is conveyed by a 15-inch vitrified pipe to the compensating basin, and thence by 10 inch Cast Iron Main to the City Pumping Station. The artesian well water gravitates from Tor Hill Reservoir to the City through an 18-inch pipe.

A rectangular reinforced concrete reservoir is situated near the City Pumping Station. It is 150 feet long, 153 feet wide and holds 21 feet of water its capacity is 5,000,000 gallons.

The Compensating Basins have a capacity of 1,065,000 gallons.

At the City Pumping Plant the equipment consists of two $2\frac{1}{2}$ million gallon per day, and two $3\frac{1}{2}$ million gallon centrifugal pumps, both sets having parallel and series connections which enable them to deliver their capacity at 60 pounds pressure or half capacity at 120 pounds pressure. Prior to 1924 both sets were steam driven. For greater economy in operating what is largely a standby service electric motors have been purchased and installed on both sets. The capacity and pressure of the pumps will remain the same. To provide a standby in case of electric failure a new pumping unit has been added, consisting of two 3,300,000 gallon per day centrifugal pumps, each driven by a gasoline engine. These pumps are capable of delivering their rated capacity at 100 pounds pressure.

The normal domestic pressure by gravity is 25 to 40 pounds per square inch which can be increased by pumping

The Distributing System consists of two trunk mains 24 inches in diameter, and one 18-inch, with a Venturi meter on each line, the gridiron connections range down to six inches. The total length of distributing mains is 66 miles and supply mains 14 miles.

Rates as per Schedule in Bylaw 946

SCHEDULE "A"

Applicable to Private Houses only.

Size of House	Rate per month	Allowance per day	Allowance per month of 30 days
2, 3 and 4 rooms	\$1.55	16 cu. ft.	480 cu. ft.
5 rooms	1.60	18 cu. ft.	540 cu. ft.
6 rooms	1.65	20 cu. ft.	600 cu. ft.
7 rooms	1.70	22 cu. ft.	660 cu. ft.
8 rooms	1.75	24 cu. ft.	720 cu. ft.
9 rooms	1.85	26 cu. ft.	780 cu. ft.
10 rooms	1.90	28 cu. ft.	840 cu. ft.
11 rooms	2.00	30 cu. ft.	900 cu. ft.
12 rooms	2.10	32 cu. ft.	960 cu. ft.
13 rooms	2.15	32.5 cu. ft.	975 cu. ft.
14 rooms	2.20	33.5 cu. ft.	1005 cu. ft.
15 rooms	2.25	34.5 cu. ft.	1035 cu. ft.
16 rooms	2.35	35 cu. ft.	1050 cu. ft.

Rate per 100 cubic feet for excess consumption over allowance 25c per 100 cubic feet.

The above monthly rates are payable in advance.

The monthly minimum rate will be charged whether water has been actually consumed or not.

SCHEDULE "B"

Applicable to all Other Services

Consumption per month 30 days	Rate per 100 cubic feet	Minimum charge per month
0 to 1000 cubic feet	23c	\$ 1.50
1000 to 2000 cubic feet	21c	2.30
2000 to 5000 cubic feet	20c	4.20
5000 to 10000 cubic feet	19c	10.00
10000 to 15000 cubic feet	18c	19.00
15000 to 22000 cubic feet	17c	27.00
22000 to 30000 cubic feet	15c	37.40
30000 to 40000 cubic feet	13c	45.00
40000 to 50000 cubic feet	12c	52.00
50000 to 70000 cubic feet	11c	60.00
70000 upwards.....	10c	77.00

Consumers may be required to make a desposit with the City Treasurer, this deposit to be sufficient to meet the estimated consumption of water consumed per month. The average consumption of the preceding three months will be charged whether water has been actually consumed or not.

SCHEDULE "C"

Applicable to consumers who have stand pipes connected with the City's water system on their own private property.

Rates per month, payable in advance,
75c.

SCHEDULE "D"

Applicable to Houses situated on Water lines which are not connected with the City Water System.

Charge per month, payable in advance
50c

SCHEDULE "E"

Building and Construction Rates

Concrete, per cubic yard	10c
Each 100 cubic feet in wall or rubble or coursed ashlar masonry	10c
Each 1,000 Bricks	10c
Each 100 square yards of lime plaster	75c
Each 100 square yards of wood fibre plaster	25c
The above rates are payable in advance.	

SCHEDULE "F"

Lawn or Garden Rates applicable only to Consumers not charged on Meter Rates

\$3.00 for first 1,000 square feet, 75c for each additional 1,000 square feet.

The above rates are payable in advance. To the rates to all the above schedules an increase of 10 per cent has been authorized by Council.

Accounts are rendered from the City Treasurer's Office monthly, and shall be due and payable when rendered, but if paid within ten days from the date on which same are mailed the user of water shall be entitled to a discount of ten per cent. When accounts are not paid within fifteen days from date on which said accounts are mailed, the Superintendent shall disconnect the service and the water will not be turned on again until the arrears have been paid, together with an additional charge of \$1 for reconnection.

NOTE—All meter readers and other employees whose duties require them to enter premises of consumers are required to wear a badge.

CITY OF REGINA WATERWORKS DEPARTMENT
Table of Expenditure and Revenue for Years 1920, 1921,
1922, 1923 1924 and 1925.

xEstimated

THE PARKS DEPARTMENT

Superintendent: J. M. Craig.

Office; City Hall. Phone 8121.

The present area of land set aside for public park purposes is 257 acres. Wascana Park is the largest, being about 45 acres in extent. The value of this land with improvements is estimated at \$3,300,000.

WASCANA PARK—Situated to the south of the City, has a frontage of a quarter of a mile along the Wascana Lake. This Lake extends for nearly two miles east, and affords excellent facilities for boating, bathing and skating, of which full advantage is taken. A large Boat Club Building and Boat Livery are situated on the shores of the Lake. A Civic Bathing House is maintained for the free use of the public. Some 35,000 men, women and children use the Pool from June 1st to September 15th. A Band Stand occupies an appropriate position in the Park and frequent Band Concerts are given. This Park, adjoining as it does, the grounds of the Regina College, and being in full view of the Lake and Parliament Buildings, offers ample opportunity for development.

VICTORIA PARK—One Block from the Post Office, in the heart of the City has an area of over 7 acres. This Park is laid out in an ornamental scheme, with a Fountain in the centre, while trees, shrubbery and flowers are used to good advantage in beautifying it.

ALEXANDRA PARK — Generally known as Broad Street Park, is used as

a children's playground, and is equipped with suitable apparatus. It is proposed to lay out several other playgrounds in different parts of the City, in a similar manner, with a view to conforming as far as possible with the School Curriculum of Playground teaching.

STANLEY PARK—Facing the Union Depot, is laid out with walks, flower beds, trees, shrubs and lawns, and forms an appropriate setting for the Station of the Canadian Pacific and Canadian National Railways.

BOULEVARDS—The Parks Department has under its control some 41 miles of improved Boulevards, most of which have been seeded and planted with trees. The varieties used are mostly Elm and European Ash.

SKATING RINKS—Thirty Public Skating Rinks were maintained and operated during the past winter. These were placed at convenient locations throughout the City. It is estimated that some 60,000 people made use of the rinks during the season.

In addition to these rinks the Department has given some assistance and attention to several community and semi-private rinks throughout the City. It will be necessary to provide more rinks another year to take care of the large numbers who resort to this popular winter sport.

SPORT GROUNDS—At present four of these are maintained in different sections of the City. They are as follows:

No. 1—Exhibition Grounds, contains Baseball Diamond and Cricket Crease.

No. 2—Park de Young, between 9th and 10th Avenues, Retallack Street and Robinson Street, is used for Baseball.

No. 3—Block 255, between 9th and 10th Avenues, Robinson Street and Cameron Street is used for Football.

No. 4—Block 330, and a portion of 329, between Victoria Avenue West and South Railway Street, Argyle Street and Princess Street. These grounds are available for Baseball, Football and Tennis Courts.

No. 5—Maple Leaf Park, South-east.

No. 6—Blocks 70 and 71 North-east.

The Parks Department is responsible for the floral decoration of all Parks within the City, the plants for bedding being propagated in the greenhouses at the Nursery.

NURSERY—The Nursery covers some 35 acres of ground and is located at Broad Street North and Fourth Avenue. Here are being grown approximately 96,000 trees and shrubs, and about 10,000 herbaceous plants for future distribution in the different parks and playgrounds.

There are also two greenhouses and 250 hotbed sash. From these some 100,000 plants are furnished for transplanting in the various Parks of the City.

The Officials of the Parks Department are at all times willing to give practical and theoretical information as to planting, pruning and cultivating trees, shrubs and flowers of all kinds, the seeding and cultivating of grasses and lawns or any work of such nature.

PARK EXTENSION—For some years considerable attention has been given to the question of a comprehensive Scheme of Parks, Boulevards, Playgrounds, etc. A scheme, prepared by a noted City Planning Expert, has been received and will be considered in conjunction with the matter of zoning and town planning generally.

SEWER SYSTEM

In 1910 a comprehensive sewer system was laid out to serve all the outlying parts of the City and work was commenced on the outfall arrangements and main trunk sewers in that year and has since been carried on to completion. The system is a modified separate system whereby all the sewage from the old City system and the domestic sewage from later extensions is conveyed to the Disposal Works and treated therein before discharging into Wascana Creek, while the drainage and storm water is conveyed separately to discharge at convenient points from the various districts served. \$900,000 has been spent on this work which is in such shape that it is only necessary to install the various branch sewers as they are required by expansion of the City to serve any part of it. The system is capable of expansion to any degree that is desirable within the present City Limits and any part of the area has an outlet furnished for any branch sewer that may be necessary.

There are now installed throughout the City 82.26 miles of sewer, varying in size from 8 inches to 72 inches in diameter. The disposal works is designed so that it can be extended to be capable of treating 9,000,000 gallons of sewage per day by a sedimentation and bacteriological process that will render the effluent nonputrescent.

REGINA MUNICIPAL RAILWAY

Superintendent: D. W. Houston.

Office at Car Barns. Phone 3626.

The construction of the Street Railway as a municipal enterprise was projected in 1910. Actual construction began in the early part of 1911 and operation of cars on same was commenced July 29th, 1911. At this time the system consisted of about six miles of track and six cars. Now there are 30 miles of track within the City Limits $14\frac{3}{4}$ miles of this being in pavement.

The rolling stock is as follows:

- 34 Passenger cars.
- 2 Sweepers.
- 1 Snow Plow.
- 1 Motor Haulage Car.
- 30 Freight Cars.

The total expenditure up to December 31st, 1925, was \$1,814,335.84 of which \$266,065 was for cars and car equipment.

Operation statistics for the years 1924 and 1925 are as follows:

	1924	1925
Revenue Passengers carried.....	4,768,796	4,794,775
Transfer Passengers carried.....	664,407	658,599
Total Passengers.....	5,433,203	5,453,374
Passenger Car Miles..	1,044,976	1,055,155
Other Car Miles.....	10,776	10,838
Total Car Miles.....	1,055,762	1,065,993
Passenger Revenue...	\$296,255.72	\$298,073.19
Other Revenue.....	18,770.79	16,958.48
Total Revenue.....	\$315,026.51	\$315,031.67
Operation Expense...	244,852.39	235,140.35
Operation Surplus....	70,174.12	79,891.32

The following fares were effective during the year:

Cash.....10c
Tickets.....4 for 25c.
Tickets.....17 for \$1.00 (book)
Tickets..... 8 for 25c (Children over
5 and under 14 years)

School Tickets.... 8 for 25c, good only
on School days, 8 a.m to 9.30 a.m.
12 noon to 1.30 p.m. and 3.30 p.m.
to 5.30 p.m.

All cars in regular service are operated by one man. This method of operation has proved practicable and made a big saving in operating expense.

About two thirds of the revenue, other than passenger, is derived from Freight Haulage. The Department delivers all coal to the City and Provincial Government Power Houses and handles garbage from a central transfer station to the Civic Incinerator.

HEALTH DEPARTMENT

General Office, City Hall, Phone 3617.

Medical Health Officer, M. R. Bow,
M. D.

Work and requirements of Principal Branches of the Department.

Communicable Diseases—The Public Health Act requires physicians, householders, parents and teachers, who know or have reason to suspect any case of communicable disease, to forthwith notify the Medical Health Officer of same.

Householders are further required, immediately they are aware of any communicable disease in their household, to post up written notice or placard not less than 8 by 6 inches in dimension, bearing the name of the disease in conspicuous letters. Such notice may only be removed under the authority of the Medical Health Officer.

The minimum penalty for non-compliance with these requirements is \$5.00 and the maximum penalty \$100.00.

Child Hygiene Division—A Child Hygiene Branch has been in operation for several years, Clinics being held at various centres in the City and attended by the City's own Nursing Staff. The Public Health Nurses' Office is in the basement of the City Hall.

Vital Statistics Branch—Births, Marriages and Deaths occurring within the City are recorded here. The securing of a complete and accurate record of these is a matter of most vital importance to the individual and the community.

Citizens generally should bear in mind that the unregistered child has no existence in the eyes of the law. It is the first duty of the parent to safeguard the rights of their children by the prompt registration of births.

All births and marriages must be registered at the office of the Department of Health within 30 days from the occurrence thereof.

Deaths must be registered at the same office before a permit to bury can be obtained.

Parents, guardians or occupants of dwellings where births occur are required to register births.

Clergymen officiating are required to register marriages..

Physicians attending are required to certify as to deaths.

Neglect or failure to report births, marriages, deaths or burials renders parties liable to a fine not exceeding \$50.

Vital Statistics, 1925

Births, 10.98—Birth rate per 1,000 population 29.6.

Deaths, 349, including 135 non-residents—Death rate per 1,000 population, *gross 9.4. †Net 5.7.

Infantile Mortality

Total Births 1098.

Total Deaths 83 under 1 year of age.

Rate per 1,000 births—75.5.

*Gross rates include residents and non-residents.

†Net rates are of residents only.

Cemetery Branch—Plots are sold and permits issued for Burials by the Health Department.

Street Cleaning—The City owned teams collect all garbage, refuse, etc., also operate the City's equipment for cleaning streets, pavements and the removal of snow from paved streets and sidewalks.

The City Health Bylaw requires that householders provide suitable covered receptacles for the storage of garbage and refuse and that manure shall be stored in properly constructed fly tight manure boxes and removed at frequent intervals.

The Sanitary Inspection Division is responsible for general sanitary conditions, and in the course of this work made 3,027 inspections during 1925.

Meat and Food Division—Systematic Inspections are made of all hotels, restaurants, bake houses, butcher stores, wholesale and retail stores, abattoirs and all other establishments handling food.

Dairy Inspection —Inspection work is carried on in the City and country. Milk for City consumption must be pasteurized if brought into the City from a distance exceeding ten mile radius from the City Limits. All raw milk must be produced from tuberculin tested cattle.

Plumbing Division—Before proceeding to construct, reconstruct, or alter any portion of the plumbing, drainage, ventilation or Water Supply System of any building, the owner or his agent must file, in the office of the Health Department, an application for a permit therefor, and such application shall be accompanied with a specification or abstract

therefor on a form provided for this purpose by the Corporation.

Relief Division—Relief is disbursed by the Relief Division to the City sick, and to indigent persons.

Coal and Wood—The weights of wood and coal are inspected and checked on the City scales by an Inspector from the Health Department.

Refuse Disposal System—Regina has now in operation one of the most modern Refuse Disposal Plants on the continent. All refuse collected from the City is hauled to a central Transfer Station, where it is loaded into steel dump cars. From the Transfer Station, which was specially constructed for this purpose at a cost of \$20,000 the refuse is transferred over the Street Railway to the Incinerating Plant at the Disposal Works a distance of two and a half miles. The Incinerating Plant constructed at a cost of \$64,000 has a capacity of 110 tons per 24 hours, and is modern in every particular. It is proposed to utilize the steam generator at the plant to drive pumps at the Disposal Works and to light the grounds.

REGINA GENERAL HOSPITAL

The Regina General Hospital and Isolation Hospital are under the control of a Board of Governors appointed by the City Council under the provisions of "The City Act."

Board of Governors, 1926

Mr. S. C. Burton, (Chairman)
His Worship Mayor Mason (Vice Chairman.)
Commisioner L. A. Thornton.
Alderman W. H. A. Hill.
Alderman E. B. McInnis.
Dr. E. E. Kells.
Mr. James Grassick.

Officials

Superintendent—M. R. Bow, M. D.
Managing Secretary—Geo. E. Patterson.
Superintendent of Nurses—Miss Irene Smith, R. N.

Telephone

No. 5643—Private Branch connecting all departments.

Fees

From \$2.00 to \$5.00 per day, according to accommodation required. Extra charges are made for X-Ray, Laboratory, and Operating Room service, the hospital being thoroughly equipped to give the most up-to-date service in all these departments.

Visiting Hours

Public Wards—From 2 to 4 p. m. and 7 to 8 p.m. on Tuesday, Thursday, Saturday and Sunday.

Semi-Private Wards—Daily 2 to 4 p.m. and 7 to 8 p.m.

Private Wards—10 a.m. to 9 p.m. daily.

Children's Wards—Tuesday, Thursday and Sunday, 3 to 4 p.m. Strictly limited to parents only

Number of Beds

General Hospital.....200 beds
Isolation Hospital..... 30 beds

The Pathological Laboratory and the X-Ray Department are each under the direction of a Medical Director.

The nursing staff of 12 graduates and 80 nurses in training are comfortably housed in the Nurses Residence.

Summary of 1925 Report

Cost of site and buildings.....	\$595,639.19
Cost of Isolation Building....	18,844.86
	<hr/>
	\$614,484.05
Debenture charges—1925.....	32,411.89
Cost of Operation—1925.....	237,559.85

REVENUE 1925

Patients' Fees.....	\$174,118.29
Government Grant	31,768.00
City of Regina Grant.....	37,000.00
Patients treated.....	4,909
Total days of treatment.....	64,822
Daily average of patients.....	177

REGINA GREY NUNS' HOSPITAL

The Hospital is under the direction of the Grey Nuns with Sister M. L. Clair in charge as Superintendent. The telephone No. is 7676 having private branch exchange connecting all departments.

This hospital is situated on blocks 223 and 224 on Dewdney Street, near the Exhibition Grounds. It is thoroughly up-to-date in every respect with its fully equipped operating rooms X-Ray Department and Pathological Laboratory. It can accommodate 147 patients in addition to the staff. Fees for patients from \$2.00 to \$5.00 per day according to wards or private rooms.

The contract for a New Wing and Power House to the Hospital was let early in February. The new wing will provide 48 new private wards many of which will have private baths and lavatories, also equipped with a silent signal system and a private telephone in each room. The balance of the added accommodation of the three storeys and a basement will be occupied by a Nurses' dining hall and quarters for the maids.

The operating room will be remodelled on the main floor a suite will be given over to the doctors. The power house will be constructed outside the building. A children's ward with a roof garden in connection will be equipped on the third floor on the south west wing of the present building. There is a very comfortable Home for 42 nurses situated on the hospital grounds, Phone 4658. Sister O'Grady is the Superintendent of the Nurses. Visiting hours every day from 2 to 4 and 7 to 8.30 p.m.

THE POLICE DEPARTMENT

The Police Force and Department are under the control of the Board of Police Commissioners, consisting of the following:

W. E. Mason, Mayor (Chairman.)

His Honor J. W. Hannon, Judge of the District Court.

J. H. Heffernan, Police Magistrate.

The Police force consists of a Chief Constable, two Inspectors, four Detectives, three Sergeants, three Patrol Sergeants, two Patrol Drivers, twenty-three Constables, Police Court Clerk, Chief Constables Clerk, Record Clerk, Matron and Janitor.

Police Magistrate—J. H. Heffernan, Phone 3221.

Chief Constable—M. J. Bruton. Phone 5366.

Police Department—

General Office, Phone 3222.

Detectives' Office, Phone 2021.

Inspectors' Office, Phone 2021.

Clerk to Police Commission—

George Beach, Phone, 3615.

The City is divided into beats which are known as Day and Night Beats. A larger number of constables are required on night duty owing to the fact that the Department has to keep supervision over about 754 business premises, including Banks, Stores, Warehouses, etc., during the absence of the owners at night time. On 1,402 occasions during 1925 business premises were found insecure by the Police, twenty-eight of these being Banks.

During the year 1925, a total of 1,758 persons appeared before the Police Court having been arrested or summoned. In addition to this 704 persons were cautioned by the Police for breaches of City Bylaws or Vehicles Act.

Lost or stolen property to the value of \$66,391.70 was recovered by the police and returned to the owners, being 89.07 per cent of all property reported lost or stolen during the year.

Out of a total of 63 automobiles reported stolen during 1925, 62 were recovered through the activity of the Police Department.

392 accidents, 2 of which proved fatal, 3 sudden deaths, and 1 attempted suicide, were investigated and reported on by the Police.

8004 occurrences were reported and received the attention of the Department during the year.

1,881 letters of enquiry and requests for assistance in locating criminals or missing persons were received and investigated by members of the the Department during 1925.

During the year the Police kept supervision over 342 furnished houses during the temporary absence of the owners.

The Detective Department is equipped with a most up-to-date Bureau of Identification, containing at the present time 2,118 photographs and descriptions and 2,796 fingerprints of criminals, most of whom are known throughout this continent.

LICENSES

License Inspector—S. Lyne.

Office Phone—3614.

The license year commences on the first day of January and ends on the 31st day of December in each year. No rebate is allowed on any license, but the license may be transferred, subject to approval of Council upon payment of a fee of two dollars.

Schedule of License Fees

Actors, troupes or company of,	
per day	\$10.00
Auctioneers	50.00
Auto filling Station, for each	
pump	25.00
To keep or ply for hire, each	
automobile	25.00
Baths, public, first 3 tubs	5.00
Each additonal tub	2.00
Barber shops, one chair	20.00
Each additional chair	5.00
Bicycles	1.00
Photo agents	100.00
Board, feed and sale stables	30.00
Billiard or pool tables, one table..	35.00
Each additional table	25.00
Bill poster and Advertising de-	
vice	50.00
Bowling alley, one bed	35.00
Each additional bed	25.00
Boat Livery	25.00
Building mover	25.00
Boxing exhibition—Professional....	200.00
Chimney sweep	10.00
Circus, menageries, etc., per day	
\$300.00 to	500.00

Chauffeur	2.00
Chautauqua, first day	50.00
Each additional day	25.00
Coal or wood dealer	50.00
Detective, private	100.00
Dogs—	
For each dog	2.00
For each bitch	5.00
For kennel of registered dogs ..	15.00
Dance halls, per floor	50.00
Dancing schools or academy, per floor	50.00
Dray—One horse	6.00
Two horses	12.00
Exhibitions, natural or artificial curiosities, per day	10.00
Exhibitions, wrestling, profess- ional each	50.00
Window cleaner	10.00
Ice Dealer	10.00
Street vendor, hawker or pedler, on foot	50.00
Street vendor, hawker or pedler, with horse	75.00

Public Affairs—M. G. Simpson, Chairman.

Highways Section.

MUNICIPALLY OWNED INDUSTRIAL SITES SERVED WITH UNIQUE SPUR TRACK SYSTEM

The City of Regina occupies a premier position as regards Canadian Cities and in fact a premier position among American Cities, in that it owns a large portion of its original townsite, and has set aside an area of about seventy-five (75) blocks in which are and in which may be located wholesale and distributing houses and industrial concerns.

This area is served by a spur track system linked with the two transcontinental railways, which enables the business houses or industrial concerns to ship goods and to have goods shipped to their places of business in carload lots thus saving cartage.

This district is also well paved. It is served by water, sewer, electric light, and power and Street Railway services, all of which are owned and operated by the City. A number of new businesses have been located here during the past four years and the City stills holds considerable property in this area, which is available for manufacturing or warehouse sites.

The City Commissioners have authority to negotiate with anyone intending to locate in Regina, but each transaction is submitted to the City Council for final approval.

The property is sold at a reasonable price, there being no inflated values. The purchase of sites may be arranged on terms of one-quarter cash and the balance in three annual instalments bearing

interest at the rate of seven (7) per cent.

In order to eliminate speculation with this property, the City includes in the agreement of sale a proviso, which calls upon the purchaser to erect buildings of a certain value and type of construction within a specified time, and no more property is sold than is necessary for each business, allowances being made for expansion.

The system of spur-tracking at the present time is as follows:

The Railway Companies, at the request of the City, construct what are known as main spurs, running chiefly through the lanes in the centre of the blocks. On any person acquiring property from the City, the City do two things; firstly, reserve a right-of-way over the 12 feet next to the lane for a right-of-way, and issue transfer to the remainder of the property free from all incumbrance. This 12-foot right-of-way is reserved in order that for all time to come the City will be in a position to supply the owners of property with spur track facilities, whether it be to one or to a whole block; secondly, on issue of transfer the City obtain from the purchaser a spur track rental agreement, which calls for an annual rental at the present time of 17 cents per front foot frontage on the land. This rental defrays the cost of construction of the main spur. The City likewise pays a yearly rental for construction and maintenance of the main spur to the Railway Company.

The spur track rental agreement is registered against the title, but in no way

affects the security, but merely protects the City in the event of the property changing hands.

On application to the Railway Company, approved of by the Board of Railway Commissioners and the the City of Regina, the owner of the property may obtain spur from the main spur, along the 12-foot right-of-way. The property owner must, of course, pay for this private spur to the Railway Company.

This system of trackage means that the owner of property may have cars spotted to his place of business, no matter what Railway Company brings the car to the City, as the main system is connected up with all the Railway Companies.

At the present time there is constructed over seven miles of main spur tracking and over fourteen miles of private spurs.

Regina is described in industrial and Commercial Publications as the largest distributing centre of Western Canada, and as a distributor of farm implements, the greatest in the world, business in this line having reached \$25,000,000 in one year.

Further particulars as to this property may be obtained from the City Commissioners.

See also pages 13 and 14.

BANKS IN REGINA

Bank of Montreal—H. C. Francis, Manager.

Bank of Nova Scotia—J. E. Edgington, Manager.

YOUNG WOMEN'S CHRISTIAN ASSOCIATION

The Young Women's Christian Association Building has an ideal situation on Lorne Street facing Victoria Park. The building is open to all girls and women, especially to strangers in the City. Sleeping accommodation is provided for over seventy, comprising business girls, students and transient guests. The building also contains a splendid up-to-date cafeteria, a reading room, and library, provided with a number of the best magazines and books a rest room, club room with fire-place, parlors, gymnasium, a swimming pool which is up-to-date in every particular and is a great asset to the work of the Y.W.C.A., and executive offices. The Association also owns a summer cottage at Fort Qu'Appelle on Echo Lake, which is open during the holiday season, July to September.

Two Travellers' Aid Officials meet all trains and take care of women and children arriving as strangers in the City. These are brought to the Y.W.C.A. or directed to inspected rooming houses.

Officers for 1926

Ladies Working Committee

Convenor Mrs. J. L. Fielder; Mrs. F. C. Brownlee, Mrs. A. L. Hewlett, Mrs. A. J. Tomlin, Mrs. Bourne, Mrs. Duggan, Miss Lena Howard and Mrs. Playfoot.

The maintenance of the Inspector and all humane work is kept up by Voluntary Contributions.

THE LEGISLATIVE BUILDINGS AND GROUNDS, REGINA, SASKATCHEWAN.

The construction of the Legislative Executive Buildings was commenced in the year 1909 and completed in the year 1912. Architects E. & W. S. Maxwell of Montreal Canada. Approximate cost, Three Million Dollars. Length of Buildings, approximately six hundred feet, width two hundred and seventy-five feet; height from the ground level to the top of the dome, one hundred and eighty feet. Built of Tyndal stone transported by four hundred and twenty freight cars from Manitoba. Three hundred men were employed day and night for eighteen months, preparing the stone for the building.

The interior main entrance leads up to the Rotunda and Legislative Assembly Chamber. The Rotunda contains fine examples of Grecian marble pillars. Throughout the building are specimens of Canadian marble from the Missiquoi and other quarries in Quebec and imported marble from Italy, Ireland, Sweden and other countries. In all there are thirty-four varieties. There are four floors in the buildings, including the basement, on which are approximately two hundred and fifty rooms, all fully occupied; with an overflow from three or four departments located in different parts of the City. Leading up from the top floor is an iron stairway to the top of the dome, from which point of vantage a splendid panoramic view of the City of Regina

and surrounding country can be obtained.

The Legislative Assembly Chamber is located in the centre of the buildings on the first floor. From the Assembly Chamber across the rotunda and situated immediately over the main entrance, are the Lieutenant Governor's room, The Premier's room and the Executive Council Chamber, in which excellent examples of wood and metal carving, tapestry reproduced from that in the Vatican at Rome adorn the walls of the Executive Council Chamber. On the same floor, in the east wing and facing the City, is the Legislative Reference Library and Members reading room. The library contains many things of interest including photographic groups of the Legislatures, past and present, from that of the North West Territories legislative Council in 1884 to the present Legislative Assembly of Saskatchewan; and the table around which sat the Fathers of Confederation during the conference at Quebec in 1864. Floral decorations furnished by the Government Conservatory, which is situated immediately south of the buildings assist in making the Library most attractive.

Over the main entrance of the Buildings there is built a pediment on which is displayed a fine example of sculptors art, executed by the Bromsgrove Guild of Handicraft, an English Concern with a branch in Montreal. This beautiful work is the artist's design of "Progress" which sets forth in clear outline the immigrant with the new applicances for soil cultivation and the native Indian with the crude one of the past.

In the centre sits a female figure, representing Canada, with one arm resting in a welcome manner on the newcomer, and the other on that of the native, indicating that he is still cared for and his interests maintained. The whole conception is well executed. The most noticeable feature of the whole structure of the Buildings is the strict consistency of architectural lines.

The grounds are extensive, covering an area of one hundred and sixty-seven acres; approximately eighty-five acres of which are exceptionally well laid out. Improvement is extending over the entire area of the surrounding government property. Included in the total acreage is the Government Nursery, which occupies a tract of land of approximately thirty-seven acres, situated in the south west corner of the government property. Here trees and shrubs, etc., are raised for transplantation elsewhere as the improvement of the grounds proceeds. The spacious lawns are much admired and lead down to Wascana Lake, which is situated immediately opposite the front of the buildings. The lake is an artificial one, having been created by the damming of the Wascana Creek. The appearance of the lake however, has become possessed of natural beauty by the attention given to the adornment of its banks and adjoining land, with trees and shrubs, by the Government and the city of Regina.

The approach to the Buildings is lined with standard cluster lamps and trees and when illuminated, the effect produced is excellent. Light is supplied to the Buildings and adjoining property

by the Government Power House, which is located a little south of the buildings, almost hidden from view in its environment of trees and shrubs. The plant which is of modern type comprises six high pressure horizontal engines directly connected to 75 K.W. direct current generators. Steam is supplied by four water tube boilers of 250 horse power capacity each and equipped with mechanical stokers of the chain grate type. The Buildings are heated by exhaust steam from the generating units.

SASKATCHEWAN GOVERNMENT

Lieutenant-Governor—The Hon. H. W. Newlands.

Executive Council

Premier, President of Council, Minister of Highways and Minister in charge of Railways—Hon. J. G. Gardiner.

Minister of Public Works—Hon. A. P. McNab.

REGINA COLLEGE

College Avenue and Scarth Street,
Office Phone 4681, Conservatory of
Music, phone 6168.

The promoters of Regina College have had in mind the enrichment of the citizenship of the West by an educational institution calculated to meet necessities for which adequate provision had not previously been made in the Province.

In the Academic Department students are prepared for School Teachers' Certificates and for Junior and Senior Matriculation, also for the First and Second Years of the Arts and Science Courses of the Provincial University. In the Preparatory Department special help is given to those whose early education was neglected. There is a Special Winter Course by which a good general education and also a business training is provided for young farmers.

The Household Science Department provides a splendid course in Home Economics including Cooking, Dress-making and Millinery work.

Associated with the College is a fully organized and developed Conservatory of Music leading to the A.R.C.M. and L.R.C.M. diplomas. Provision is made for those who desire to take the Toronto and McGill Conservatory Courses. Instruction is given in practically all branches of Music including Voice Culture, Piano, Violin, Cornet, Clarinet, Saxophone, Mandolin, Banjo and Guitar. Connected with the Conservatory of Music is also a Department of Expression.

The work of Regina College has been greatly appreciated by the people of Saskatchewan. About six hundred students enrol yearly.

Arrangements are also made for the teaching of expression and a well outlined course in this subject has been provided.

Officers

President—Rev. E. W. Stapleford, B.A., D.D.

Chairman of Board—Chief Justice J. T. Brown.

First Vice Chairman—His Honor, Judge Hannon.

Second Vice Chairman—F. N. Darke.

Third Vice Chairman—Rev. A. J. Tufts.

Secretary—D. J. Thom.

Treasurer—W. E. Mason.

Solicitor—Col. J. A. Cross, D.S.O.

Executive Committee

The above officers and J. W. Smith, Chas. Willoughby, Rev. T. Jackson Wray, Lorne Johnson, and A. G. Orchard, and Rev. J. H. Toole, Rev. I. B. Naylor, and T. D. Brown.

The Faculty.

E. W. Stapleford, B.A., (Toronto), D.D., (Victoria), President.

Academic Department

Egerton R. Doxsee, B.A., (Toronto), B.D. (Victoria), Registrar and Dean of Academic Department, Professor of Classics. Medallist in Classics and Prince of Wales Silver Medallist in General Proficiency.

J. H. Lee-Grayson, studied at South Kensington, Beaux Arts, Brussels and Liege and at l'Academic Julian, Paris. Teacher of Art.

ST. CHAD'S COLLEGE

The Theological College for the Diocese of Qu'Appelle is situated on College Avenue. Fifteen acres of land were purchased from the Provincial Government, on part of which the College is built. It is a very handsome structure of red brick with terra cotta dressings. The building which includes a Warden's residence in the east wing and the College Chapel in the west wing, is a free rendering of the English College style. There is room for thirty resident students besides the staff and servants. It is one of a group of buildings which the Anglican Communion hopes to erect on the site purchased from the Government. The Synod and Clergy houses have also been built on this site.

The College Building is temporarily used for the Diocesan Girls' School and the Theological Students occupy the St. Cuthbert's House adjoining the College.

The Very Rev. G. N. Dobie, D.D.,
Warden of the College.

Sub-Warden—Rev. R. S. Rayson, M.A.

The staff includes—The Ven. Archdeacon Knowles, LL.B.; the Rev. F. Stanford, A.K.C.L.; and the Ven Archdeacon Davidson, M.A.

QU'APPELLE DIOCESAN SCHOOL FOR GIRLS.

The Qu'Appelle Diocesan School for Girls was established in 1918. The School is under the charge of the Sisters of St. John the Divine.

The staff consists of four Sisters with Miss Mary L. Allison, Head Mistress. Assistant Mistresses—

Miss C. J. McPherson.

Miss W. Saunders.

Mrs. Leighton.

Miss Jean Craig.

Miss Dorothy Rowell.

The course of instruction is that prescribed for the Public Schools and High Schools of the Province of Saskatchewan supplemented by courses in Religious Instruction, French, Music and Dancing. The School is a local centre for the Toronto Conservatory Examinations in Music. Special courses are given by arrangement with the Head Mistress.

The School has been given the use of St. Chad's College (the Warden's residence and College Chapel excepted) for four years.

Chaplin—The Very Rev. G. N. Dobie, D.D.

Treasurer—The Rev. W.H.B. Scharpe.

School Telephone—3594.
